

THE TANK TENDER

THE ORIGINAL PRECISION TANK MEASURING SYSTEM

MAY 2023 TANK TENDER PRICING

HOW TO ORDER:

- 1) How many tanks to measure total
- 2) Choose gauge scale, 30" or 60" depending on the deepest tank to be measured on the system
important to have EXCESS gauge capacity at full tank measure from top of tank to deepest point at bottom to choose correct gauge scale. (for tanks deeper than 60/70" call for deeper gauge scales)
- 3) Add the Purge Valve (PV) if any waste tanks are to be measured, only One PV is needed per system.
- 4) one TPF EXTENDER is needed for each tank over 30" deep

PLEASE CALL OR EMAIL IF ANY QUESTIONS ABOUT ORDERING

Lisa at 253.858.8481 or email: hartsystems@centurytel.net

S30-1 OR S60-1: \$693. ONE TANK SYS
 S30-2 OR S60-2: \$865. TWO TANK SYS
 S30-3 OR S60-3: \$1037. THREE TANK SYS
 S30-4 OR S60-4: \$1209. FOUR TANK SYS
 S30-5 OR S60-5: \$1381. FIVE TANK SYS
 S30-6 OR S60-6: \$1553. SIX TANK SYS
 S30-7 OR S60-7: \$1725. SEVEN TANK SYS
 S30-8 OR S60-8: \$1897. EIGHT TANK SYS
 S30-9 OR S60-9: \$2069. NINE TANK SYS
 S30-10 OR S60-10: \$2241. TEN TANK SYS

Choose
Gauge Scale
30/35"
OR
60/70"

****ADD TO SYSTEM PRICE:

- 1) **IF ANY WASTE TANKS:**
ADD \$113. FOR PURGE VALVE (PV)
(only one PV needed per system)
(example: S30-2PV)
- 2) **IF ANY TANKS OVER 30" DEEP:**
ADD 1 TPF EXTENDER PER TANK OVER 30" DEEP @ \$25. EACH (TPF-EXT)
(for 60" gauge scale systems mainly)

TANK TENDER BASIC COMPONENTS:

Instrument panel: panel, gauge, pump, 1 pushbutton valve per tank, with OR without purge valve

Gauge Scale: choose either 30/35" that reads up to 30" water and 35" diesel OR 60/70" scale that reads up to 60" water and 70" diesel - be sure to have EXCESS gauge capacity at full tank

Nylon Tubing (NT): each system comes with 30' per tank in continuous roll

Tank Penetration Fitting (TPF): each system comes with 1 TPF per tank (30" straight tube attached and tubing connector)

TPF EXTENDER: TPF-EXT: for tanks deeper than 30". Is another 30" straight TPF tube with a brass tube union in one end that fits into the bottom of the TPF tube, with a stiffening wire inside the tube for added straightness for deeper tanks. NO wire in waste tanks, remove.

PURGE VALVE (PV): is a bypass toggle valve within the instrument panel. For waste (black/grey) tanks. When toggle is in purge position, air bypasses the gauge, allowing more air to pass through the system to "purge" the TPF tube inside the waste tank, protecting the gauge against damage due to clogged waste tank TPF tube; once clear, release pushbutton valve, flip toggle back over to read to then take measurement.

REPLACEMENT PARTS FOR OLDER SYSTEMS:

TUBING CONNECTOR (TC) @ \$14

Tubing Connector (are on the end port of each Valve and each TPF)

UNION (UN) (nylon tubing splicer) @ \$18

1/8" nylon tubing splicer

PUMP ASSY (PA) @ \$175

PURGE VALVE REFIT @ \$205

PVR - Purge Toggle valve refit to existing unit, for waste tanks send unit in for refit

TAP/DRILL SET @ \$30

(10/32 tap #21 drill)

Prices subject to change without notice.

Shipping/packaging cost varies with order, destination, transit;

Please email for quote if needed.

TPF @ \$45

Tank Penetration Fitting (comes w/30" straight tube attached and tubing connector)

TPF-EXTENDER @ \$25

TPF EXT - TPF Extender (for tanks deeper than 30"
30" straight TPF tube, brass tube union and stiffening wire inside)

VAK @ \$114

Valve add kit (is valve, tubing connector, brass hose barbs and urethane tubing)

NT @ .60/FT

Nylon tubing (1/8" od, runs between unit and tanks)

GAUGES @ \$215

30/35 reads up to 30" water and 35" diesel
60/70" reads up to 60" water and 70" diesel
160" water/180" diesel; 25" water only (cisterns)
